

LUXURY AND LIGHT

Introduction

Light is our paint, that we splash across the canvas of architecture, creating our masterpieces. And what is a painter without an array of different options for color and hue? Similarly, we too, must hold the right lighting pallet to see our visions realized.

In the world of lighting, there exists a sea of manufacturers offering more variety of fixtures than one could ever imagine. While having options is good, the pure volume of fixtures available makes it impossible to keep up. Furthermore, how do you separate the bad from the good? Will manufacturers stand behind their product or will they put your reputation at risk?

This book presents a simplified collection of some of the best lighting products available on the market. Products that will allow you fill all the needs of your job with confidence. Products that provide flexibility and choice, without being overwhelming. From the most technologically advanced to the most artfully designed. Of course if you don't see exactly what you are looking for, you can always reach out to the team at CT. We represent over 100 lines and can assist you in finding your perfect fixture!

Recessed Downlights

Lutron - LittleOnes®

Lutron - Ketra D3 and G2

Lutron - Ketra D3

Lutron - Ketra D3 and A20

Lutron - Ketra D3

”

The most successful and brilliant work a lighting designer can do is usually the least noticeable.

Jean Rosenthal

Lutron Ketra

D3 Downlight

Endless possibilities and unparalleled precision define Ketra’s High Def Palette. Choose from a wide range of available of high CRI whites, saturated colors, and pastels with 16.7 million colors at your fingertips.

Ketra’s Dynamic Spectrum allows you to tune the perfect light for every moment with endless possibility. Follow the natural rhythm of daylight, dim down to 0.1% and 1400K for warmth, or turn the dial on Vibrancy to completely transform artwork, making vivid colors pop.

Place light precisely where you want it — and nowhere else. Ketra’s TruBeam combines an emitter and other optics to produce the maximum range of beam spreads, while maintaining uniform color and intensity.

With other LED solutions, colors can degrade over time—or mismatch if LEDs are sourced from multiple manufacturers. Ketra’s unique Color Lock solution aligns color points across each individual light source, actively preserving accurate, beautiful hues for the life of the light.

Built from scratch and packed with dozens of patented innovations, Ketra’s D3 family elevates the standard for premiere architectural downlights. The D3 family offers fixed, adjustable, and wall wash downlights in a low-profile housing, while field adjustable optics allow you to shape light how you want it, where you want it.

USAI

LittleOnes®

Who says TINY comes at the expense of performance? The LittleOnes, a one-inch recessed fixture, challenges the norms of compact lighting. Despite its small size, the LittleOnes delivers up to 1100 lumens of powerful output, boasting unparalleled glare control with off-the-charts optics. Serviceable from below, these fixtures combine engineering excellence with a discreet trim aesthetic, offering lighting designers a compact yet high-performance canvas for creativity.

Versatility meets sophistication with the LittleOnes, featuring a 1" aperture that seemingly disappears, casting brilliance and creativity. Explore a spectrum of possibilities with wide-ranging dimming options and color technologies. Achieve an excellent wall wash distribution for evenly lit walls from floor to ceiling - with no scalloping, shadows, or backlight.

Amerlux

Hornet HP 3.5" Downlight Family

Small in size but big on performance. Hornet® HP Downlights deliver the output of the 20W ceramic metal halide, but with the control and crisp color of the MR16 halogen. The Round 3.5" aperture is available as a Downlight, Adjustable, Pinhole Adjustable, Pinhole Adjustable Slot and Shower Trim, as well as Lensed Downlight and Lensed Wall Wash.

Twice Bright

XL Series

The XL Series downlights offer exceptional efficiency and LED performance in a small design friendly fixture. With an airtight and IC rating without a traditional box, a small 2" aperture, and lumen output up to 1100lm, these discreet downlights deliver with their output. CRI value ranges from 84-97, R9 values on 90+ CRI modules range from 83-87. The XL Series offers exceptional color rendering. They are available in many CCTs as well as a dim to warm option.

Specialty Ceiling Mount

ERCO - Compar

Solais - Nano Array

Solais - Nano Array

”

An effective lighting design is like a beautiful painting. Your medium is bringing someone to an emotional state he or she would not achieve at that moment without your art. This does not and cannot happen by accident.

Glenn Cunningham

CSL

Acrobat™

CSL Acrobat delivers top-tier performance with premium light quality and control. Its unique design allows separate installation of the light module for a seamless fit, and easy 360° rotation and tilt adjustments ensure quick customization. The compact housings fit into tight spaces, optimizing performance in diverse environments. Featuring CSL's patented Silent Vu™ optics, Acrobat provides exceptional light quality with minimal glare, presenting a professional and clean look below the ceiling.

Solais

Nano Array

The Nano Array recessed multiples, using Nano LUCIE modules, are a sleek and compact option with a modular platform allowing easy maintenance of individual components above and below the ceiling – without compromising aesthetics.

Available in 1-head, 2-head, 3-head, and 4-head configurations.

Erco

Compar linear

Differentiated light from the ceiling in an innovative design. Compar gives architects, lighting designers and engineers broad scope for creative precision: With this range of innovative recessed luminaires, ERCO has extended the spectrum of round and square recessed lighting tools with a strong linear housing design. The slim luminaires—available from a width of 52mm—offer a subtle decorative detail in the ceiling while providing extremely efficient lighting tools with high standards of visual comfort. As an aesthetic alternative to linear fluorescent lamps, Compar supports individual ceiling-integrated lighting concepts in administration buildings, restaurants, cultural and office projects.

Modular International Instruments

Hollow Recessed

Step into a realm where illumination becomes art with the Hollow Recessed Trimless. This downlighter seamlessly integrates into your ceiling, casting direct light when open and blending elegantly into the background when closed. A symphony of opposites, it's adjustable, versatile, and intriguing. Choose from black, gold, or white, and set the mood with temperature options from 2700K to 3500K. It redefines lighting in damp or dry locations, turning your space into a captivating experience.

Pendant

Lightly Butterfly - Butterfly

Innermost - Panel

B.lux - Aspen S17

B.lux - Aspen S17

”

Design is defined by light and shade, and appropriate lighting is enormously important.

Albert Hadley

B.lux

Aspen S17

Unleash your creativity with this Suspension Lamp – a dual aluminum shade masterpiece in two configurations. Choose from matte lacquer finishes, including classic tones like grey and snow, vibrant options like lemon and aqua, and new, daring finishes like merlot and sea. The black-finished center ring and cable add a touch of drama, creating a striking contrast. Experience the perfect blend of direct and diffused light, transforming your space into a haven of creativity.

Innermost

Panel

Born from a blend of material experimentation and an exploration of forms, Panel is a design marvel by Steve Jones. Inspired by contemporary jewelry and architectural metal cladding, Panel is a dynamic chandelier that seamlessly blends polished and matte surfaces. Reflecting the essence of its surroundings, this statement piece comes in a diverse range of finishes and colors, offering a touch of modern sophistication to any space.

Lightly Butterfly

Butterfly

Sprouting from a commitment to eco-conscious design, Butterfly defies conventional luminaire norms, breaking away from the reliance on translucent diffusers. Instead, it pioneers an 80% indirect / 20% direct light distribution through a unique open-web optical profile, elegantly finished in highly reflective, white, eco-friendly paint. Concealing LED engines below, Butterfly minimizes glare, offering a distinctive open-air ambiance.

The pendant embodies sustainability, with a composition of 95% biodegradable, 3% recyclable, and merely 2% landfill-bound. The wool felt gasket, completing the ensemble, is a tangible symbol of Butterfly's unwavering commitment to innovation and eco-friendliness.

Track

XAL - Move It System

Blackjack Lighting - Jack Track

XAL - Move It System

XAL - Move It System

”

Find beauty not in the thing itself but in the patterns of shadows, the light and the darkness, that one thing against another creates.

Junichiro Tanizaki

XAL

Move It System

The sleek MOVE IT SYSTEM has revolutionized channel systems. No tools are required as insets are installed using magnets, which gives you the flexibility to combine them in a variety of ways. Trimless installation and the streamlined spots make for an especially elegant system. The patented slider makes adjusting the beam angle easy so that you can highlight objects just the way you want them. Maximum light quality, outstanding in every detail.

Blackjack Lighting

Jack Track

JackTrack is a versatile system that can suspend any of the BlackJack's multiport pendants and or a linear LED strip in a variety of lengths. It can be flush mounted, stem mounted or suspended and can be built in a linear fixture or in a larger grid to fit a large range of applications.

Coronet

Magneto

Magneto is an innovative and dynamic track system designed for ease and flexibility. With snap-in magnetic mounting, the system allows effortless rearrangement of various modules, providing a fully customizable solution tailored to your specific needs—Magneto color temperature ranges from 2700K to 4000K, ensuring a personalized and dynamic lighting experience. Standard lengths include 1ft, 2ft, 4ft, 6ft, and 8ft, with the option for custom lengths to perfectly complement your space.

ERCO

Invia

This revolutionary architectural lighting transforms linear design, seamlessly integrating into diverse spaces. Invia offers unparalleled flexibility for museums, galleries, public buildings, and offices.

Its sleek structure is both a design element and a comprehensive toolbox for various light distributions, excelling in meeting diverse illumination needs. With toolless adjustments and click-in luminaires, Invia redefines the standard for linear lighting.

Invia is the future of lighting – a harmonious blend of form and function, bringing the fourth dimension of architecture to light.

Lutron Lumaris Tunable White Tape - Lumaris Tunable White Tape

”

*Design is not making
beauty, beauty emerges
from selection, affinities,
integration, love.*

Louis Khan

Lutron Lumaris Tunable White Tape

Lumaris Tunable White Tape

As the first-ever tape light intricately designed to seamlessly integrate with the Lutron connected lighting control system, Lumaris brings unparalleled versatility to your creative endeavors. Experience tight, tunable white control that empowers you with independent adjustments of color temperature and intensity, allowing for the creation of captivating scenes and effortless manual changes.

This tape light solution sets a new standard for excellence with industry-best 0.1% dimming capabilities and a natural warm dim curve. Lumaris is purpose-built to harness the core technologies of Lutron, ensuring rock-solid reliability and precision performance.

Modular Lighting Instruments Como corner surface

Como Corner Surface

This innovative product effortlessly blends into any space, providing discreet yet powerful ambient lighting that beautifully emphasizes vertical and horizontal lines. Designed for seamless integration, Como Corner Surface can be painted to match the wall, ensuring a cohesive and aesthetically pleasing look. With a color temperature range of 2700K to 3500K and dimmable functionality, you have full control over the ambiance. Offering output options of 1000lm/m and 2000lm/m, its fine structured scratch-resistant surface adds durability and a touch of sophistication to your lighting solutions.

Precise LED Zenlite

Zenlite®

Zenlite® is the pinnacle of LED Lighting Systems. This recessed fixture sculpts a seamless line of light, letting designers craft captivating patterns effortlessly. Easy installation on 5/8" drywall walls/ceilings and customizable with various light modules and color temperatures. Gain ultimate control with dimmable options. Zenlite® is also available for direct/indirect pendant mount.

Targetti/Duralamp

Duratape

DURATAPE is a flexible linear strip with superior performance for continuous consistent color applications. With options ranging from high-output, narrow spaced LEDs for uniform, uninterrupted emission energy to efficient, low output narrow spaced LEDs. Available in both indoor and outdoor options, DURATAPE is ideal for cove, under-counter/cabinet, and lighting accent applications.

LLI Architectural Lighting

LLI-LTW Tunable White

LLI Architectural Lighting pride themselves in being an architectural LED linear and “invisible” lighting specialist. Applications range from accent lighting to general illumination. The expertise and products you need, with high-quality products including flexible LED linear lighting products, aluminum extrusions, LED light bars, and LED puck lights. Their latest Tunable White LED tape gives you the power to dial in the color temperature to meet the exact needs of the application.

Innermost - Facet Wall

Innermost - Facet Wall

”

Lighting is everything. It creates atmosphere, drama and intrigue in a room.

Martyn Lawrence Bullard

ILEX

Ava LED Linear Sconce

Featuring a slim line of light, this modern linear LED sconce mounts with a thin rectangular backplate that can be centered, slide off-center for a more asymmetrical look or with no backplate and a remote mounted driver, as shown in these application photos. Lengths include 24, 36, 48, mount sconce horizontally or vertically for fresh, clean light in a variety of spaces.

Innermost

Facet Wall

This stunning up and down illuminating fixture crafted from polished stainless steel sections. The intricate facets create a captivating play of light, often deceiving the eye with the appearance of glass or crystal. This wall light offers versatile installation options and is available in Brass, Bronze, or Stainless Steel with acid-etched facets. Tom Kirk's iconic design, born as a chandelier, now extends to smaller pendants in polished stainless steel, brass, or bronze. Elevate your space with the timeless sophistication of the Facet Wall Light.

BesaLighting

Optos

The Optos wall sconce uses two separate optical-effect lenses to produce interesting displays of up/down light. The aluminum body allows for 359-degree rotation and holds the lenses with clips. Our Clear Lens is a transparent molded borosilicate glass, with a parabolic shape designed to carefully refract the light rays in the light source. The result is an edgy display that exudes an energetic mood. When lit this gives off a light that is functional and vibrant. This handcrafted glass uses a process where every glass is consistently produced using a mold, keeping variations to a minimum.

Chandelier/Hanging Lamps

CTO Lighting - Nimbus Chandelier

CTO Lighting - Nimbus Chandelier

CTO Lighting - Nimbus Chandelier

ILEX - Perch Chandelier

”

Chandeliers are marvels of drop-dead showiness, the jewelry of architecture.

Peter York

CTO Lighting

Nimbus Chandelier

Each piece of glass is unique. The droplets are hand-formed by our artisans using a process where undulations and crystal-like textures form. The translucent glass is complimented and beautifully framed by the symmetrical metalwork. The light emitted is a warm, soft glow. Referencing both retro and modern aesthetics, the Nimbus creates a stunning centrepiece and transfixes those who see it.

ILEX

Perch Chandelier

It is a stunning fusion of artistry and functionality. The Opal Glass globes of the Perch Chandelier curiously balance on exquisitely finished Acid Dip Black or Satin Brass arms that resemble tree branches. The Perch can accommodate both standard and LED candelabra bulbs and has a companion wall sconce.

Exterior

Targetti - Jedi Recessed

Targetti - IVY

”

*It's the artist's business to
create sunshine when the sun
falls.*

Romain Rolland

Targetti

IVY

A groundbreaking leap in outdoor lighting designed by Stefano Boeri Interiors. IVY seamlessly intertwines Architecture, Light, and Nature, revolutionizing outdoor spaces day and night. Crafted as the first 24V innovative system for outdoor environments, IVY discreetly integrates cutting-edge technology, offering a versatile blend of lighting, audio, and wireless sensors. Its linear, minimal design adapts effortlessly to any public space, creating a harmonious link between interior and exterior aesthetics. Recognized with an Architectural SSL Product Innovation Award, IVY stands out for its performance, reliability, efficiency, ease of integration, and innovation. Illuminate private terraces, dining spaces, or architectural structures with IVY, and witness the transformation of outdoor spaces into inviting, functional havens.

SPJ Lighting

Mr. Universe

Elevate your design universe with the exquisite Mr. Universe Directional Light – a fusion of form and function. Crafted from solid brass in a stunning Matte Bronze finish, this luminary masterpiece brings unparalleled sophistication to your creative space. Illuminate your vision with precision, thanks to customizable optics offering Spot, Flood, Wide Flood, and Wide Angle Flood options. Emitting 150 lumens at a warm 2700K color temperature, Mr. Universe ensures your designs shine brilliantly. Lighting redefined – Mr. Universe is your beacon to a design cosmos of endless possibilities.

Auroralight

LMWL Micro Well

The LMWL well light is a state-of-the-art high-performance LED luminaire machined from solid brass and stainless bar. It features durable silicone O-rings and grommets ensuring the fixture remains hermetically sealed even in the most extreme conditions.

Acclaim Lighting Terra Linear

Terra Linear

This in-ground linear series will redefine your design canvas with extended runs up to 1400 feet from a single driver, seamlessly adapting to voltages from 100-277V. Terra Linear has a sleek, low-profile design and is drive-over and walk-over rated, featuring an anti-slip coating. The direct-view option delivers a flawless LED marker light for pathways.

Purposefully designed for simplicity, Terra Linear is easy to specify, install, and exceptionally durable. Its minimalist aesthetic effortlessly integrates into any project space, offering a timeless appeal.

Terra Linear provides design flexibility with eight color options and one optics, including a dot-free direct-view version.

ERCO

Tesis

With high-power LEDs, diverse color temperatures, and a CRI of 92, Tesis blends efficiency with aesthetic sophistication. Prioritize safety with anti-slip glass, elevate aesthetics with a V4A stainless steel cover ring, and enjoy enhanced visual comfort with specially designed housing and optical components. With Tesis, you will experience outstanding uniformity in illuminance, meeting stringent vertical standards.
